GRILLO chair

A chair for a thousand activities.

Grillo Chair is an **ergonomic** and **adjustable chair** indicated for children with disabilities who need support while performing recreational, educational and daily activities.

It is an **ergonomic seat** designed to provide **maximum comfort** for the child who, by improving sitting posture, is encouraged to develop manual motor skills, attention, and thus social inclusion.

The **load-bearing upholstery, extremely breathable and durable**, allows the child to live a **rewarding and hassle-free sitting experience**. Available in pink and blue.

Thanks to a wide range of postural components, the **Grillo Chair is easily adaptable** to meet the needs of every child. In class and at home the **child will feel safe** and this will help him in various activities and to approach to peers.

PRODUCT
MARKED 

GRILLO CHAIR IS A MEDICAL DEVICE COMPLYING WITH THE SAFETY REQUIREMENTS DEFINED BY REGULATION (EU) 2017/745

Perfect Matching

Stability, posture and practicality

Grillo Chair has a compact aluminum frame, painted with non-toxic epoxy powders.

The **gas-spring height adjustment system** allows the chair height to be changed even with the child seated.

Safety system to avoid unintentional activation.

Grillo Chair is the ideal solution at school and home: it can be combined with any surface for educational and play activities or with multifunctional tables such as **Ormesa's Multifunctional Table**, creating a **perfect match between stability, posture and practicality.**

Smart upholstery

Leading-edge cover

The upholstery of Grillo Chair has a **honeycomb** leading-edge structure, therefore it is **extremely breathable in contact with the skin**. The structure of the fabric creates an "air chamber" that allows both **air circulation, for maximum breathability**, and an effective **natural thermal insulation**.

The double layer is a guarantee of:

- › **Hygiene:** thanks to the excellent breathability, it reduces sweating and bacteria formation.
- › **Washing:** the fabric composition allows easy sanitization and washing, despite the upholstery is not removable.
- › **Quick drying.**
- › **Resistance:** High resistance to abrasion. The high resistance texture maintains its performance even at high loads (ISO 12947 test).
- › **Fire retardant:** according to EN 1021-1:2014 and EN 1021-2:2014.

Technical features and adjustments

Backrest

Reclines with two green levers easily and securely. Adjustment in height by sliding without any risk of losing the screw.

Seat

Ergonomic and slightly tilted seat to prevent the pelvis from slipping ensuring greater comfort. Adjustable in depth by sliding continuously and precisely. Adjustable in width thanks to the optionable component 958 multi-adjustable padded pelvic side supports.

A man with a beard and a ponytail, wearing a blue shirt and jeans, is kneeling on the floor. He is assisting a young child who is seated in a specialized adaptive chair. The child is wearing a white t-shirt and is interacting with a tablet computer. The chair is a four-wheeled adaptive device with a black frame, blue mesh backrest, and adjustable armrests. The child's feet are positioned on a black footplate. The chair has 'ORMESA' and 'SEALLO' branding. The child is seated at a white, adjustable-height table. The background shows a preschool environment with orange walls, a sink, and various toys on shelves. A radiator is visible on the right side of the frame.

We thank Sterpete's Preschool
for their support and hospitality.

Giulio and his story
await you in the Ormesa
official website, together
with other protagonists
of our fantastic global
community.

A special thanks to the families who participated with enthusiasm in our project. It is thanks to our customers and their stories that we find the energy and stimuli to evolve day by day.

CE complies with MDR (EU) 2017/7
